

ZUBAIR AHMAD

INVENTORY MANAGER | PROCUREMENT & SUPPLY CHAIN | ERP SYSTEMS

Peshawar, Pakistan | +92 316 8606411 | zubairahmadd16@gmail.com

PROFESSIONAL SUMMARY

Inventory and MIS Officer with 4+ years of experience managing end-to-end stock control, ERP-based reconciliation, and purchase order (PO) / goods receipt note (GRN) cycles. Proven record of maintaining 100% inventory accuracy, optimizing reorder levels, and reducing stock-outs through data-driven demand forecasting. Combines strong supply chain operations with a technical background in ERP troubleshooting and systems support, enabling faster issue resolution and better cross-departmental coordination.

KEY ACHIEVEMENTS

- Maintained 100% inventory accuracy across multiple stock categories through disciplined daily physical-to-system reconciliation in BUSY ERP.
- Reduced stock-out incidents by improving reorder-level monitoring and aligning procurement cycles with consumption trends.
- Built internal MIS dashboards (Django/PHP) that gave management real-time visibility into operational performance, replacing manual reporting.
- Resolved recurring ERP and network infrastructure issues independently, cutting system downtime and reducing dependency on external IT vendors.

CORE COMPETENCIES

- | | |
|---|---|
| ▪ Inventory Planning & Stock Reconciliation | ▪ ERP Configuration & Troubleshooting (BUSY) |
| ▪ Purchase Order (PO) & GRN Processing | ▪ Demand Forecasting & Reorder Level Analysis |
| ▪ Vendor & Warehouse Coordination | ▪ Stock Audits & Variance Analysis |
| ▪ Supply Chain Reporting & Dashboards | ▪ Network Infrastructure & IT Systems Support |

PROFESSIONAL EXPERIENCE

Inventory Planner / Manager – Hamza Hassan Detergent Soap *May 2025 – Present*

- Own end-to-end inventory operations using BUSY ERP, conducting daily physical-to-system reconciliation across multiple product categories with consistent 100% accuracy.
- Create, process, and approve Purchase Orders (POs) and Goods Receipt Notes (GRNs), ensuring full compliance with internal controls, documentation protocols, and approval workflows.
- Monitor reorder levels and lead demand forecasting using historical consumption data, driving timely procurement decisions that prevent stock-outs and reduce excess inventory.
- Coordinate directly with warehouse, procurement, and finance teams to ensure smooth material flow, accurate vendor follow-up, and on-time supply replenishment.
- Lead internal stock audits and variance analysis, identifying root causes of discrepancies and recommending process improvements to strengthen inventory controls.
- Generate weekly and monthly management reports covering stock consumption trends, fast-moving vs. dead stock analysis, and PO tracking to support purchasing and budgeting decisions.
- Diagnose and resolve ERP-related technical issues independently, maintaining uninterrupted system functionality and inventory visibility across departments.

MIS Associate / MIS Assistant – Water & Sanitation Services Peshawar (WSSP) *Dec 2023 – Apr 2025*

- Developed and maintained Django- and PHP-based internal reporting systems, including performance dashboards that gave management real-time, actionable operational insights.
- Provided Tier 2/3 IT support across biometric attendance devices, IP-based CCTV systems, and LAN network infrastructure for multiple departments, ensuring stable daily operations.

- Diagnosed and resolved system performance, database, and ERP-related issues, reducing downtime and minimizing manual data-entry errors across reporting systems.
- Managed system backups, printer networks, and end-user training, supporting smooth IT operations and reducing reliance on external technical support.
- Supported infrastructure planning for biometric and surveillance systems, including configuration and remote monitoring of IP-based CCTV using UBNT wireless technology.

Junior Web Designer – SoftLixx Technologies (Pvt) Ltd

Jun 2022 – Nov 2023

- Designed and maintained responsive, brand-aligned websites for client projects across multiple industries.
- Collaborated with senior developers and cross-functional teams on UI/UX improvements, contributing to consistent on-time project delivery.
- Demonstrated strong attention to detail and dependability, recognized by management as a hardworking and reliable team member.

KEY PROJECTS

BOD Management System (Django)

- Built a full-text search and OCR-based document retrieval system for board meeting records, agendas, minutes, and follow-ups.
- Implemented Role-Based Access Control (RBAC) for secure, permission-specific access across member, admin, and staff roles.
- Designed the data model to track meeting agendas, decisions, and follow-up actions across multiple board cycles.

Wireless IP-Based Surveillance System (UBNT Wave Beam)

- Designed and deployed a wireless IP camera surveillance network using UBNT Wave Beam technology for long-range, interference-free connectivity.
- Configured static IP camera assignments and optimized network bandwidth and security settings for reliable live monitoring.
- Planned camera placement and network topology to ensure full site coverage with minimal signal interference.

TECHNICAL SKILLS & WORKING KNOWLEDGE

- ERP & Inventory Systems: BUSY Software – real-time stock accuracy, PO/GRN processing, multi-warehouse inventory management, and reporting.
- Procurement Lifecycle: PO creation, GRN processing, supplier coordination, and system entry validation across the full purchase cycle.
- Stock Forecasting & Demand Planning: Historical consumption analysis, reorder-level modeling, and fast-moving vs. dead stock classification.
- Network & Infrastructure: Router/switch configuration, IP management, LAN troubleshooting, and printer network setup.
- Biometric & Surveillance Systems: Installation, configuration, and remote monitoring of biometric devices and IP-based CCTV, including UBNT wireless technology.
- Development & Reporting Tools: Django (Python) and PHP for internal dashboards and MIS automation; WordPress CMS for content-driven websites.
- Design Tools: Canva for visual reporting materials; basic vector design in Adobe Illustrator.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

2023

CECOS University of IT and Emerging Sciences
